## DETAILED ACTION

1. This Office Action is in response to applicant's amendment filed on 1/3/2006.

### ***Allowable Subject Matter***

2. Claims 1-4, 6-10, and 12 are allowed. Claims 6-10 and 12 have been renumbered 5-9 and 10, respectively.

3. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest, in combination with all the elements recited in each of the independent claims, the sliding block having an extending portion extending from the rear face at the top edge to penetrate the elongated through hole and having a limiting cutout defined in the top face of the extending portion for receiving the driving block, a stub formed on the rear face near the bottom edge at the first end to operationally engage with the stub notch on the base when the sliding block biases, an inclined face formed on the extending portion at the first end, a guard formed on the extending portion at the top edge of the sliding block, and a slit defined longitudinally in the guard wall to engage with a wall of the elongated through hole to keep the sliding block stable inside the block recess.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
